Hello my name is Michael Cuevas and I'm a 2D Animation Artist. If you put together 10 years of banking experience, a passion for animation, 17 years for a college career, mixed with a lot of Latino flavor you get me. Drawing, cinema and collecting comics are my vices in life but family and friends are what motivate me. I've been passionate about animation since I walked into the Disney studio down in Florida for the first time. I was 10 when my eyes were fixated on people drawing some of my favorite childhood characters. I turned looked at my parents and said that's what I want to do. I've taken the long way to get into the industry, but I've never given up.
